Shivansh Soni

Java Backend Engineer | Banking & Financial Services
Indore, Madhya Pradesh, India | 8871266369 | shivanshsoni568@gmail.com | linkedin.com/in/shivansh1soni

PROFESSIONAL SUMMARY

Backend Software Engineer with 2+ years of experience designing, optimizing, and scaling Java microservices for enterprise fintech and banking systems. Experienced in event-driven architectures with Kafka and JMS, payment infrastructure modernization, legacy-to-cloud-native migration, and RESTful API development. Currently integrating AI capabilities into modern platforms at Magic EdTech.

TECHNICAL SKILLS

Languages: Java 11 / 17 / 21, SQL
Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Batch, Spring Cloud
Architecture: Microservices, RESTful APIs, Event-Driven Architecture, Payment Processing, Tokenization
Messaging: Apache Kafka, JMS, ActiveMQ
DevOps & Cloud: Docker, Kubernetes, Jenkins, CI/CD, Microsoft Azure
AI: AI Orchestration, RLHF, LLM Response Evaluation

PROFESSIONAL EXPERIENCE

Senior Associate (Software Engineer – AI Native) | Magic EdTech

May 2026 – Present | *Indore, Madhya Pradesh, India*

- Integrate AI capabilities into modern education technology platforms as an AI Native Engineer.
- Work on AI orchestration and backend services using Java and Spring-based microservices.

Associate Software Engineer | Tech Mahindra

September 2024 – March 2026 | *Pune, Maharashtra, India*

- Developed and maintained enterprise-grade banking backend services using Java 11/17, Spring Boot, Spring MVC, and Spring Security, deployed on VM-based and Dockerized environments.
- Built and maintained event-driven messaging pipelines using Kafka, JMS, and ActiveMQ to support reliable, high-throughput banking workflows.
- Implemented a threshold-based real-time transaction alert system, improving fraud detection responsiveness in production.
- Contributed to core payment infrastructure modernization, including high-throughput Banknet pipelines and secure tokenization gateway integration.
- Assisted in migrating legacy monolithic banking applications to cloud-native, containerized environments.
- Contributed to upgrading legacy Java applications from version 11 to 17.
- Designed and delivered RESTful APIs for client-facing banking applications, meeting strict business and compliance requirements.

Software Engineer (AI Training & Evaluation) | Outlier

May 2023 – August 2024 | *Noida, Uttar Pradesh, India*

- Designed 300+ multi-turn scenarios to evaluate model reasoning by intentionally triggering failures and providing corrective responses across 3-5 conversational turns.
- Evaluated 1,000+ model responses and completed 400+ RLHF tasks by rating outputs across multiple criteria, selecting the best response, and providing written justification.

EDUCATION

Bachelor of Technology, Information Technology | Technocrats Institute of Technology
August 2020 – June 2024
Class XII (PCM) | Model Higher Secondary School
June 2019 – March 2020

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals
- Microsoft Certified: Azure AI Fundamentals

ACHIEVEMENTS

- LeetCode Contest Rating – Top 12%
